About Config Management Camp

Configuration Management Camp is the event for technologists interested in adopting, improving, and using Open Source Configuration Management frameworks. People from diverse communities meet, exchange ideas, and learn from one another.

Configuration Management Camp is held after FOSDEM to facilitate combining travel for all attendees. The fact that many people will already be travelling to Brussels for FOSDEM makes it easier to attract the right group of international people. This year Configuration Management Camp takes places on 5th, 6th, and 7th of February 2024 in Ghent, Belgium, just after FOSDEM the 3rd and 4rd of February 2024 in Brussels, Belgium.

History

The first Configuration Management Camp was held in 2014 and has grown to more than 700 registered attendees. The event is now organized with, for, and by many people from the different open source configuration management communities. We have the privilege to use the venue of the Hogent university. Configuration Management Camp strives to include all open source communities, participants, and contributors.

FREE - GRATIS

Configuration Management Camp is a free event. We provide breakfast, and coffee during the breaks to all attendants and a social event on Monday evening, budget permitting free lunch, speaker's dinner, t-shirts, and more. When choosing your preferred sponsor budget, please keep in mind that we aim to keep the event **FREE**.
